We Like to Help Young Men

The young man is an object of interest to this Bank. We want him to get a start and then to get on.

The future of our country is in the hands of its young people. Many of them are realizing their responsibility as citizens of the Greatest Country in the world. Happily, however, there are great many who do, and who are young people who seem to appreciate the pleasure in watching them and in helping them.

MISCELLANEOUS

The usual monthly allowances were made
for poor house and paupers.

L. E. Smith, agent of the Board to look
after the building of the bridge across
North's creek between T. D. Flood's and

S. R. Anderson, agent of the Board to at-

county; and the Board desiring the protec-
tion and preservation of the timber lands of
the county of considerable importance, ac-
cepted the proposition of the State Forester,
and made the appropriation of \$150, or so
much thereof as may be necessary to be
used as outlined in the written proposition
of said State Forester for the fall season of
1920 and for the spring and fall seasons of
1921, and the Clerk of the Board is directed

We want this Bank to be different--

To breathe a different spirit, to reflect a different
attitude than is said to prevail in some financial
institutions.

We desire that this shall be a bank of willing,
cheerful service—broad in its views, generous in
its sympathies, helpful in its strength—conser-
vative only when conservation is necessary to
maintain that strength.

We want the conscientious interest that we hold
for the welfare of our customers to be the mag-
net which will attract and hold the patronage of
a discriminating and appreciative public.

We desire that this spirit shall prevail in every
department and be reflected in the helpful atti-
tude of every employee.

This has been our endeavor in the past. It
will continue to be our aim and purpose in the
future.
